<ul style="list-style-type: none">I really enjoyed Professor jiang class!really happy to have him as a teacher i really enjoyed classIt was really hard to take this class online. This class is a must to take in person.Dr. Jiang had a fantastic deliberate and meticulous process to explain difficult mathematical concepts and equations so that students would better understand the material. He was very easy to get in touch with if you had questions and was always willing to help those in need. I was skeptical about this class before the semester because I am not very keen in math, but Dr. Jiang's teaching helped guide me to feel more confident in my math skills and become more proficient in studying Economics. We need more professors like him around here.
